

ROTOCON showcases turnkey solutions at Propak East Africa 2026

HAMBURG, Germany & CAPE TOWN, South Africa (4 February 2026) — ROTOCON will return to [Propak East Africa](#) on stand D4, presenting its portfolio of turnkey production solutions. The solutions support every stage of label and flexible packaging production. Propak East Africa takes place from **3–5 March 2026** at the Sarit Expo Centre in Nairobi, Kenya.

As a one-stop partner for label printers in the narrow-web industry, ROTOCON delivers proven technologies – from flexo and digital printing and finishing to inspection, curing, embossing, consumables and precision tooling.

ROTOCON's range of printing, finishing and converting machines is designed to simplify operations and improve productivity. Scalable, modular platforms adapt easily to changing production requirements, enabling consistent quality, fast changeovers and efficient end-to-end workflows. Each element is engineered for reliability, performance and ease of use.

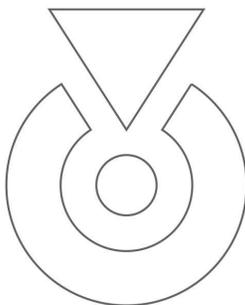

Joining Michael, Pascal and Patrick Aengenvoort of ROTOCON on stand D4 is Roger Meierhofer of Pantec Embellishment. He will present samples demonstrating how RHINO® flatbed technology delivers high-quality embellishment and cost-effective brand protection. These capabilities address the growing demand for premium, highly embellished labels and packaging.

(ROTOCON)*

“Our strength lies in our dedicated team of trained technicians who provide on-the-ground technical service and after-sales support for all the solutions we represent,” said the ROTOCON Board of Directors. “This ensures our customers not only invest in cutting-edge equipment, but also receive reliable, ongoing support to keep their operations running efficiently.”

Through its comprehensive product portfolio, deep industry expertise and strong customer focus, ROTOCON is helping label printers remain competitive, optimise production and capitalise on new opportunities in a rapidly evolving market.

Propak East Africa is celebrating 10 years as the region's leading trade exhibition and conference for manufacturing and processing industries.

Over three days, thousands of industry decision-makers, solution providers and innovators will gather under one roof. Covering packaging machinery and materials, food processing technologies, printing solutions, sustainability and automation, Propak East Africa is where ideas become partnerships and investment decisions are made.

Registration for Propak East Africa is free and available online [here](#).

About ROTOCON

Headquartered in Hamburg and Cape Town, with branches in the USA, Johannesburg, Durban and Asia, ROTOCON specialises in delivering customised turnkey solutions to the label printing and packaging industry.

The company designs and manufactures a broad range of printing, converting, finishing and ancillary equipment, balancing high quality with competitive pricing. By understanding each customer's unique production environment, ROTOCON provides tailored recommendations that meet specific operational needs.

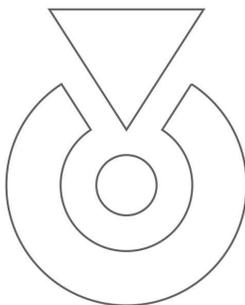

ROTOCON also offers on-site installation, training, after-sales service, maintenance, spare parts, consumables and refurbished equipment to support customers throughout the lifecycle of their investment.

The company is committed to delivering exceptional customer service and comprehensive after-sales support.
