DTPPL

DHARMANANDAN
TECHNO PROJECTS PVT. LTD.

CERTIFIED ISO 9001:2015 COMPANY

INDIA'S NUMBER 1 LEADING MANUFACTURER OF MINERAL WATER PLANT, SOFT DRINK PLANT & JUICE PLANT

DTPPL
Has Solutions For The Problems To Achieve Customer's GOAL.

- Are You not getting Pure water ?
- Are you Tired off by manual filling ?
- Are You Not getting High Production ?
- Not getting Bottle supply in time ?
- Are You looking for new Profitable Business ?
- Need more Information on Mineral water, Soft Drink, Juice, business ?

NUMBER ONE **Brand in India**

VISION

CORE IDEOLOGY

Core Purpose :

"To Bring Happiness in Human lives by Elevating Quality and Providing Revolutionary, Reliable & Innovative Solutions"

Core Values :

Customer Delight

Commitment

Integrity

Innovation

Relationship

ENVISIONED FUTURE

Big Hairy Audacious Goal (B.H.A.G) :

To incorporate Great Practices of TATA Group and achieve turnover of 2000 crore by 2035.

VIVID DESCRIPTION

DTPPL will be Highly Aadmired, Highly Respected & Recognized, Most Sought after Number 1 Brand in our Segments.

DTPPL's manufacturing facility will be spread Over 5 lakh square feet constructed area and 3 lakh square feet open Area. This Facility will be Environment friendly & will be equipped with world class, state of the art latest technological manufacturing machines.

DTPPL will be having world class, Hi-tech, Environment-friendly and Employee friendly corporate office in Surat.

DTPPL will be having branches & service offices in All States of the India.

DTPPL will be having 30 Branch offices at different foreign locations outside India.

DTPPL will be having Highly Qualified, Experienced, Dedicated, Committed, Energetic & Enthusiastic Employee family strength of 1000.

DTPPL will Ensure Entire Social security of All the Employees so that they can work Tension Free.

DTPPL will be having Network of 250 Distributors all over the world.

DTPPL will be having Skill Development University in Surat and will serve under privileged peoples to explore their True Potential in becoming Great Working Human being.

DTPPL will be listed in NSE, BSE and NYSE.

DTPPL will be Top rated by various rating agencies like CRISIL, CIBIL etc.

Refrigerated Air Dryer | Cooling Tower | Water Chiller | Air Compressor

Accessories For Blow Molding

Option 3 Corrugated Box Packing OR Option 2 Semi Auto Shrink Wrapping Machine OR Option 1 Fully Auto Shrink Wrapping Machine

Your Success Story Will be like this....

- High Quality Machine With Advance Technology
- Excellent Service
- Excellent Water Quality
- Best Taste of the Water
- Attractive Bottle Design
- Long Life & Durability
- High Customer Satisfaction
- High Demand & Profitability
- Multiple Production Plants
- Good Brand Image
- Success

R.O. PLANT

We design customized water purification RO plant as per raw water quality. Our Plant comes in different design including FRP, SS, ISI, Non ISI, Commercial, Industrial.
Capacity of this plant starts from 250 Lph to 20,000 Lph & More ...
We Have Developed different technology to enhance the quality & Taste of water like - **Added mineral, Ozonation, Oxygen Maker, Spring, EMF, GAC, Silverisation, Vitamin Technology etc..**

SS R.O. Plant - ISI (Premium Model)

BENEFITS OF DTPPL's RO PLANT

- ✓ Scientific design of the RO plant, based on Impurities of the Raw Water, Ensures consistent quality of the water and imparts more confidence in Water Quality.
- ✓ High thickness Stainless steel of Repute Make like ***Jindal, Essar, Tata*** gives excellent strength and gives enjoyment of long life and good return on investment.
- ✓ Simplified Control panel design ensures ease in operation and benefits of low breakdown and less down time
- ✓ DTPPL's Advanced Value added technology improves the ***taste of the water*** which helps in gaining more and more loyal clients thus helping in building BRAND & High Business ***Growth in mineral water business.***
- ✓ DTPPL's RO plant is equipped with Branded Electrical Accessories which ensures the machine's optimum performance with advantage of very low breakdown and higher productivity.
- ✓ Fully Automatic Design helps Reduce Labor Cost.
- ✓ Inner Food Grade Coating Gives Added Strength, Corrosion Resistance & Benefits of Long Durability.
- ✓ Added Mineral Technology (Optional) Gives Sweet & Rich taste to the water Which Provides Advantage in Marketing & Building BRAND Image.

AUTOMATIC BOTTLE WASHING, FILLING & CAPPING MACHINE

200 BPM

150 BPM

90,120 BPM

30,40,60 BPM

BENEFITS OF DTPPL'S AUTOMATIC BOTTLE WASHING, FILLING & CAPPING MACHINE

- ✓ Advanced Mechanical design makes machine highly sturdy which gives Vibration free operation, Easiness in maintenance and long life and duration & Value for Money.
- ✓ Major Electrical Parts are of Repute Make L&T, Schneider, Siemens which Prevents Short Circuit and hence benefits of low breakdown and smooth in Operation.
- ✓ Bottles are handled by Neck only which gives Tremendous flexibility in filling the different Capacity bottles in single Machine without changing any parts.
- ✓ Pick & Place Technology (Optional) makes the capping operation much easier which ensures low rejection of caps and better capping Performance and overall Controlling cost of production.
- ✓ Overload Protection Technology (Optional) Protect the machine from accidents and provides enhanced safety in operation and enhance the life of the machine.

BLOW MOLDING MACHINES

Jar Blowing Machine

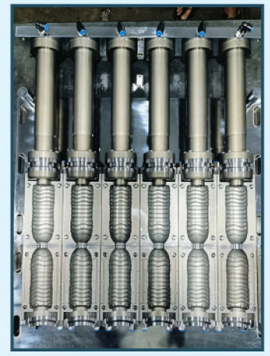
Fully Auto Blowing Machine

Semi Auto Blowing Machine

Two Blow One Conveyor

3 Cavity Auto Drop Blow

BENEFITS OF DTPPL's BLOW MOLDING MACHINE



- PLC control gives Ruggedness to withstand Vibrations, Temperature and Humidity and benefit of consistent quality of the Bottles.
- PLC is easily Programmable which gives Easiness in operation and Operator becomes more confident in operation which results in High output of the machine
- Accurately Programmed PLC Eliminates Human Error and Manual Intervention hence benefits of high accuracy and best quality of the Bottles
- Digitally Controlled Chilled water circulation nullifies the effect of temperature on Neck of the bottle which reduces chance of neck bending and hence benefits of very low rejection ratio and low production cost.
- Auto Lubrication Technology (Optional) eliminates laborious manual lubrications which will give benefit of lowest breakdown of the moving part without any hassles and very fast production
- Indexing Technology in Auto blowing Machine Eliminates requirement of Frequent Alignment of the Preform Rotating system and thus gives low maintenance and Maximum production.

POUCH PACKING MACHINES

BENEFITS OF DTPPL's POUCH PACKING MACHINE

- Base plate of 6MM thickness makes machine sturdy and machine can be lifted & transported easily without any damage. There are No chances of mis-alignment of Gearbox and Cam
- Machine comes with ALPRA - Germany Make gearbox which is designed for Heavy duty operations of Horizontal movement which gives benefits of long life, smooth operation and very low maintenance and very low breakdown
- Major Electrical Parts are of Repute Make (L&T) which Prevents Short circuit and hence benefits of low breakdown and smooth in operation
- Machine comes with Buzzer which gives intimation of set production batch and ease in Bag Packing
- Machine comes with hour meter which provides the details of total running hour and hence production data can be calculated easily.
- Heavy Duty Vertical Sealing Jaw & Horizontal Piston Provides Accurate sealing of Pouches without much noise which gives LEAK PROOF POUCH and very low rejection ratio
- Camshaft comes with Needle Bearing which is very long lasting and hence low consumable cost
