

## National Packaging Systems (NPS) together with Ishida showcases Innovative Packaging Solutions at Propak East Africa 2025

Nairobi, Kenya – National Packaging Systems (NPS), a leading manufacturer of packaging machinery, is set to showcase its advanced packaging solutions at Propak East Africa.

With over 40 years of experience, NPS has built a reputation for high-quality, reliable, and cost-effective packaging solutions designed for industries including food, beverage, pharmaceuticals, chemicals, and agriculture. Visitors to the NPS booth will have the opportunity to explore customized packaging solutions that enhance efficiency, reduce downtime, and deliver superior product handling.

“We are excited to present our latest innovations at Propak East Africa. Our goal is to provide businesses with durable, high-performance packaging machines that optimise their production processes,” says Bianca Sookdeo, Marketing Manager at NPS.

Attendees are invited to visit the NPS stand at **stand D4** to see firsthand how our cutting-edge technology and tailored solutions can revolutionise their packaging operations.
